This masterpiece has a story within a story. The narrator who opens it goes to Gilgit-Tilmas to research whether two multinational firms could set up steel plants there. He finds out that years before this, an international archaeological institute had sent a six-member team to this region where a small city named Girgit-Tilmas existed about two hundred years ago. It was particularly renowned for a mental asylum. The city was purposefully submerged in water for the construction of a hydroelectric dam by the central government. However, due to the ecological imbalance, all the rivers in the region either dried up or changed their courses. Mountainous terrain transformed into plains, and the power plant became as useless as a limb without function. So, it was demolished. The city resurfaced with its ruins and debris. It was established that a mental asylum existed at this site. Once the narrator found a manuscript among its ruins, which is at the heart of this novel. Interested in ancient manuscripts, the narrator sets out to decipher a madman's diary, a man who suffered a severe injury to his head in his mother's womb at the hands of his violent father. This diary is the story within the story, as it unravels our second narrator's relationship with his abusive father, his constant companion, the idea of self-harm, the two women in his life, and the terrifying void that swirls around him. It introduces us to the most striking aspect of Khalid Jawed's writing: the crackling mix of metaphysics and banality.

A functional account of Marathi's voice phenomena offers a comprehensive account of the formal and semantic aspects of the two most prominent voice phenomena in Marathi: the passive and the causative. Previous studies offer many partial insights into various aspects of Marathi's passives and causatives. However, a comprehensive description of the formal, semantic, and pragmatic aspects of Marathi's passives and causatives has not been available so far. Attempting to fill this gap, the present monograph offers a description in the functional typological framework. At the same time, it introduces the reader to the rich tradition of grammatical studies in Marathi, which up to now have remained inaccessible to those who are unfamiliar with the language.

Critical questions remain unanswered on the events of the cold-blooded and devastating terror attacks in Mumbai on 26 November 2008. Investigative and introspective, this book offers a lucid and graphic account of the ill-fated day and traces the changing dynamics of terror in South Asia. Using new insights, it explores South Asia's regional dynamics of antagonism, the ever-present challenge to the frontiers of India, Pakistan, and the terrorism question, the strife in Afghanistan, and the self-serving selective US war on terror. Including a new afterword, this second edition will greatly interest those in defence, security, and strategic studies, politics and international relations, peace and conflict studies, media and journalism, and South Asian studies, as well as the general reader.
